Wire

Just 3 minutes walk south of the rafting centre in Hessa we have a 70 metre long wire spanning the Mandal River. The wire is between 4 and 8 metres above the river. From the west bank you are clipped onto a runner on the wire from your harness. Then a big step into the unknown and you're speeding across the river like superman. You come to a stop at the far end and are pulled back.

Time: Normally part of a 3 hour climbing, abseiling and wire package, however it can be done individually or on completion of a raft trip.

Equipment: We supply the harness and equipment for the wire.

Season: From early May to late September.

Min number: 2 people.

Age limit: 3 years old can go in tandem with an adult.
